

IAG DENUCHANGE Workshop 2026

5th International Workshop on Denudation and Climate Change
Naxos, Greece 6 - 7 October 2026

Organizing bodies

National and Kapodistrian University of Athens

Laguna Coast Foundation

International Association of Geomorphologists

IAG Working Group Denudation and Environmental Changes in Different Morphoclimatic Zones (DENUCHANGE)

IAG Working Group Virtual Trips in Geomorphology

Supported by

Municipality of Naxos and Small Cyclades

Organizing Committee

Prof. Niki Evelpidou, Faculty of Geology & Geoenvironment, National & Kapodistrian University of Athens, Greece

Prof. Assimina Antonarakou, Faculty of Geology & Geoenvironment, National & Kapodistrian University of Athens, Greece

Dr. Anna Karkani, Faculty of Geology & Geoenvironment, National & Kapodistrian University of Athens, Greece

Dr. Giannis Saitis, Faculty of Geology & Geoenvironment, National & Kapodistrian University of Athens, Greece

Scientific Committee

Dr. Achim A. Beylich, Geomorphological Field Laboratory, Norway

Prof. Niki Evelpidou, National & Kapodistrian University of Athens, Greece

Dr. Anna Karkani, National & Kapodistrian University of Athens, Greece

Dr. Eliza Płaczkowska, University of Wrocław, Poland

Prof. Nurit Shtober-Zisu, University of Haifa, Israel

Dr. Giannis Saitis, National & Kapodistrian University of Athens, Greece

Prof. Zbigniew Zwoliński, Adam Mickiewicz University, Poland

Workshop Venue

Laguna Coast Resort, Naxos — <https://maps.app.goo.gl/iDLAnaS7PCajEDv5>

Transport

For the ice breaker event, a bus service to the venue will be provided at 18:45 departing from the [central bus station](#) in Naxos Town.

On both days of the workshop, a single bus service to the venue will be provided in the morning, departing from the central bus station in Naxos Town (<https://maps.app.goo.gl/PsK22G3EVy2mAKBL8>). The journey takes approximately 10 minutes. Return transfer will also be provided at the end of the day's activities.

Departures: Tuesday 6 October at 08:45 · Wednesday 7 October at 09:10

Please note that this is the only scheduled morning departure on each day. Participants are kindly asked to arrive at the departure point a few minutes in advance.

I C E B R E A K E R

Pre-workshop event · Monday, 5 October 2026 · 19:00

A welcome evening with light dinner and drinks.

Laguna Coast Resort, Naxos — <https://maps.app.goo.gl/iDLAnaS7PCajEDv5>

For the ice breaker event, a bus service to the venue will be provided at 18:45 departing from the [central bus station](#) in Naxos Town.

Program

The workshop is preceded by an ice breaker event on Monday, 5 October (see p. 3)

Tuesday, 6 October 2026

09:00 - 09:30: Registration

Opening	
<i>Welcome, Introductory lecture and Invited keynote lecture</i>	
09:30-10:00	Welcome speeches <i>Prof. Niki Evelpidou, Chair of the IAG WG Virtual trips in Geomorphology / Department of Geology and Geoenvironment, National and Kapodistrian University of Athens</i> <i>Prof. Achim A. Beylich, Chair of the IAG WG DENUCHANGE / Geomorphological Field Laboratory</i> <i>Prof. Zbigniew Zwoliński, Co-Chair of the IAG WG DENUCHANGE / Institute of Geoecology and Geoinformation, Adam Mickiewicz University</i> <i>Vasilis Flerianos, Deputy Mayor for Culture, Municipality of Naxos and Small Cyclades</i> <i>Prof. Assimina Antonarakou, President, Department of Geology and Geoenvironment, National and Kapodistrian University of Athens</i> Event Opening <i>Prof. Efsthios Efsthopoulos, Vice-Rector for Research and Innovation, National and Kapodistrian University of Athens</i>
10:00-10:30	The IAG Working Group on Denudation and Environmental Changes in Different Morphoclimatic Zones (DENUCHANGE, 2017-2030): Scientific need, research questions, outcomes and possible future directions <i>Beylich A.</i>
10:30-10:45	From Sustainable Tourism to Regenerative Island Development: The Laguna Pilot Model <i>Pitaras, A.</i>
11:45-11:15	<i>Invited keynote lecture</i> From Deglaciation to Rock Glaciers: Timing and Patterns of Rock-Wall Debris Production in the Southern Carpathians <i>Vespremeanu Stroe, A.</i>
11:15-11:35	<i>Coffee break</i>

Session 1: Catchment Hydrology, Sediment Connectivity and Modelling	
<i>Understanding how sediment is mobilised, transported and monitored</i>	
11:35-11:50	SWAT-based modelling of water runoff and suspended sediment transport in catchments across diverse morphoclimatic zones <i>Gudowicz J., Bochenek W., Kijowska-Strugała M., Majewski M., Zwoliński Z.</i>
11:50-11:55	<i>Discussion</i>
11:55-12:10	From LiDAR to Water-Level Animation: Visualizing Reservoir Storage Dynamics in the Mavrokolympos reservoir basin, Cyprus <i>Roussou O., Moysidou L., Agapiou A., Skarlatos D., Papakonstantinou A.</i>
12:10-12:15	<i>Discussion</i>
12:15-12:30	Cumulative mountain forest disturbance impacts on 23-year suspended sediment dynamics in a humid headwater catchment of southwestern Japan <i>Koyanagi K., Shinohara Y., Takagi M.</i>
12:30-12:35	<i>Discussion</i>
12:35-12:50	Structural connectivity in sediment transfer in the foothill Stara Rzeki catchment <i>Święchowicz J., Michno A., Ostafin K., Najwer A.</i>

12:50-12:55	<i>Discussion</i>
12:55-13:10	Debris flow release susceptibility and sediment connectivity in the Russian sector of the Greater Caucasus <i>Posazhennikova V., Golosov V. N., Kharchenko S. V.</i>
13:10-13:15	<i>Discussion</i>
13:15-14:45	<i>Light Lunch</i>

14:45-17:00	<i>Visit to the Laguna site</i>
--------------------	---------------------------------

Session 2: Denudation, Landscape Evolution and Sediment Sources <i>From long-term landscape evolution to sediment production</i>	
17:00-17:15	Toward the integration of historical data in erosion modelling: the case of Badlands landscapes of Aliano (Basilicata, Southern Italy) <i>Santoro G., Mairota P., Capolongo D., Marsico A.</i>
17:15-17:20	<i>Discussion</i>
17:20-17:35	Climate-Driven Shifts in Denudational Regimes of a Lowland Fluvial System <i>Szpikowski J., Szpikowska G., Zwoliński Zb., Mazurek M., Kruszyk R., Kostrzewski A.</i>
17:35-17:40	<i>Discussion</i>
17:40-17:55	Denudation hotspots in Italy: Towards the first national spatial dataset of badlands distribution <i>La Licata M., Maerker M., Panagos P. & Borrelli P.</i>
17:55-18:00	<i>Discussion</i>
18:00-18:15	Sediment Budget and Connectivity over the last 40 years of a small high-mountain cirque in the North Caucasus, Russia <i>Sheremetev I., Kharchenko S., Golosov V.</i>
18:15-18:20	<i>Discussion</i>

18:30-19:30	DENUCHANGE Business Meeting Working Group members
--------------------	---

19:30 Conference Dinner

Laguna Coast Resort, Naxos — <https://maps.app.goo.gl/iDLAnaS7PCajEDv5>

Wednesday, 7 October 2026

Session 3: Climate Change, Wildfires and Extreme Events

Disturbance-driven denudation and geomorphic hazards

09:30-09:45	Wildfire-Induced Denudation Processes in Mediterranean Mountain Catchments <i>Wittenberg L., Malkinson D., Brook A., Ben Yehuda D., Tessler N., Shtober-Zisu N.</i>
09:45-09:50	<i>Discussion</i>
09:50-10:05	The role of upstream contributing area to channel incision: Insights from the 21st-January flash flood of Glyfada, Athens, Greece <i>Spyrou E., Evelpidou N., Enzel Y.</i>
10:05-10:10	<i>Discussion</i>
10:10-10:25	Hydrological and sedimentological changes following the 2010-forest fire in the Nahal Oren Basin, Mt. Carmel, Israel – a comparison to pre-fire natural rates <i>Greenbaum N., Wittenberg L., Malkinson D.</i>
10:25-10:30	<i>Discussion</i>
10:30-10:45	Late Quaternary extreme erosion post-fire in the southern Levant <i>Frumkin A.</i>
10:45-10:50	<i>Discussion</i>
10:50-11:05	HistoricFloods.org: An Open WebGIS Database of Historic Flood Events in Greece (1886–2022) <i>Liaskos A., Spyrou E., Saitis G., Karkani A., Evelpidou N.</i>
11:05-11:10	<i>Discussion</i>
11:10-11:30	<i>Coffee break</i>

Session 4: From Catchments to Coasts: Coastal Responses to Sediment Fluxes

How sediment delivery shapes coastal landscapes

11:30-11:45	Coastal dune recovery: a case study from the west of Ireland <i>Lynch K., Cascone S., Morley T.</i>
11:45-11:50	<i>Discussion</i>
11:50-12:05	Seasonal sediment grain-size dynamics along a cliff-dominated beach in the eastern Mediterranean: the role of cliff erosion, waves and wind <i>Crouvi O., Shemesh R., Katz O., Mushkin A., Lensky N., Jacobi Y., Morag N.</i>
12:05-12:10	<i>Discussion</i>
12:10-12:25	The Gialova Lagoon as a Holocene sediment trap: from sediment storage to catchment-scale denudation in the Xirolagkados basin (SW Peloponnese, Greece) <i>Vespremeanu-Stroe A., Evelpidou N., Cîrjan A., Preoteasa L., Dobre M., Țuțuianu L., Hanganu D., Cruceru N., Grosu G., Karkani A., Saitis G., Spyrou E., Verga M., Piotrowska N., Mănăilescu C., Tătu F.</i>
12:25-12:30	<i>Discussion</i>
12:30-12:45	Preliminary results on coastal morphodynamics from seasonal monitoring at Aghios Georgios, Naxos, Greece <i>Konstantinidou V., Evelpidou N., Sabatier F., Karkani A., Longour L.</i>
12:45-12:50	<i>Discussion</i>

Poster Session

12:50 – 13:30	P1. A Regional Morpho-Kinematic Inventory of Periglacial Landforms in the Marginal Permafrost Environment of the Southern Carpathians <i>Onaca A., Sîrbu F., Ardelean F., Poncos V., Strozzi T.</i>
	P3. The impact of beaver activity on geomorphological processes in mountain streams (Western Carpathians) <i>Wąs J., Kijowska-Strugała M., Gorczyca E.</i>

P4. Typology and Morphometric Differentiation of Erosional-Denudational Valleys in the Marginal Zones of the Southern Baltic <i>Paluszkiewicz R., Winowski M.</i>
P5. Artificial Litter versus Geomorphological Processes: Field Experiments on Litter Movement along Carpathian Valley Slopes <i>Haska W., Gorczyca E., Liro M.</i>
P6. Geomorphology of Skiathos <i>Soultanis K.</i>
P7. Rockwall weathering and associated rockfall activity in the fjord landscape in western Norway <i>Laute K., Beylich A. A.</i>
P8. Sea-Level Forcing and Cliff Retreat on Wolin Island, Southern Baltic Sea, over a 40-Year Period: Temporal and Spatial Variability <i>Winowski M., Tylkowski J., Kostrzewski A., Zwoliński Z.</i>
P9. Investigating Subsurface Erosion in a Peculiar Badland Landform in Italy <i>Sannino A., Vergari F., Ciampi P.</i>
P10. An integrated graph theory and remote sensing approach to functional sediment connectivity analysis in an Alpine proglacial area across multiple temporal scales <i>Pandey A., Heckmann T., Savi S.</i>
P11. Responses of sediment sources and contemporary denudation rates to environmental changes in selected cold-climate drainage basin systems in Norway <i>Beylich A. A., Laute, K.</i>
P12. Geomorphological Nature-based solutions for mitigation of coastal natural hazards (tsunami & coastal floods): The case of Naxos Island <i>Gogou M., Mavroulis S., Saitis G., Karkani A., Lekkas E., Evelpidou N.</i>
P13. Preliminary Assessment of Nearshore Hydrodynamics and Potential Sediment Mobility in the Alyko Pocket-Beach System, Naxos, Greece <i>Saitis G., Evelpidou N., Sabatier F.</i>

13:30-15:00	<i>Lunch</i>
--------------------	--------------

15:00-15:30	Closing remarks
--------------------	------------------------

Virtual Field Trip (VFT) Laboratory <i>Practical experience in designing and applying Virtual Field Trips for geomorphological research and education. Use of VR headsets to explore immersive examples of Virtual Field Trips firsthand. Fostering active collaboration between members of the DENUCHANGE and VFT Working Groups.</i>		
Tutors: Dr. Anna Karkani, Dr. Giannis Saitis, Alexandros Liaskos		
15:30-16:00	Introduction to Virtual Field Trips & Methodology	Theoretical framework of VFTs, equipment selection, workflow, and showcase of diverse VFT creation tools (e.g., ArcGIS StoryMaps, Google Earth)
16:00-16:40	Rotation A (Parallel Groups)	Group 1 (Field Data Collection): Data collection techniques (360° imagery and mobile device usage). Group 2 (VR Exploration): Immersive VR headset experience; exploring diverse VFT examples.
16:40-16:50	Transition & Short Break	Switchover between groups.
16:50-17:30	Rotation B (Parallel Groups)	Group 1 (VR Exploration): Immersive VR headset experience; exploring diverse VFT examples. Group 2 (Field Data Collection): Data collection techniques (360° imagery and mobile device usage).

17:30-18:30	Synthesis	Computer-based demonstration: Integrating collected field data into different virtual environments to develop a VFT.
